Bay Area Chess, the largest nonprofit chess provider in the West, combines fun and learning while promoting a team spirit where everyone helps each other succeed and improve. Our chess program will cover the very basics for students new to the game while also challenging experienced players with more advanced concepts. Students will have the opportunity to learn all the basics of chess and explore deeper strategies, new perspectives on problem solving, tournament preparation and more! Students will also learn valuable life skills through chess, such as winning and losing with grace, sportsmanship, patience and team spirit. Our mission is to transform and enrich the lives of students through chess. Note for Grade K: BAC accepts kindergartners if they meet at least one of the conditions below: - The student already knows the basics of the game (can play a complete game). - Or the kinder is a sibling of an older enrolled student.
